

Requirements for Cruise Passengers Visiting Canada

Last Updated: **August 15, 2022**

The Canadian government's requirements for cruise passengers visiting Canada are independent of Disney Cruise Line's health and safety protocols. In addition to Canada's requirements, all Disney Cruise Line Guests must adhere to health and safety protocols outlined on our Know Before You Go page. These requirements include COVID-19 vaccination and embarkation testing, as well as all other required documentation uploaded to the [Safe Passage](#) website.

Guests should review and stay up to date with any requirements or restrictions that may be in place for travel to Canada. Visit the [Government of Canada's](#) website for information.

The following are additional requirements for cruise passengers entering Canada.

ArriveCAN

Before sailing or entry into Canada, Guests must create a profile and upload required documentation to [ArriveCAN](#), Canada's entry requirements program. ArriveCAN is available via the web or as an app for iOS and Android. The mobile app is complimentary and is available in English, French and Spanish (displayed in the language of your device). Travelers can also submit their information by signing in online at [Canada.ca/ArriveCAN](#).

Upload Documentation in Advance of Travel

Canada requires proof of full COVID-19 vaccination for travelers 12 years of age and older. Proof of vaccination and travel and citizenship documents can be saved in your ArriveCAN traveler profile **before any planned travel**. We recommend that you download the ArriveCAN app and create a profile **prior to sailing**. If you're traveling with others, you can include multiple travelers within your family in your ArriveCAN submission. Although you can upload digital versions of your documentation prior to sailing, we recommend that you also have physical copies of these documents accessible while traveling.

The Canadian government's requirements for cruise passengers visiting Canada are independent of Disney Cruise Line's health and safety protocols.

Within 72 Hours of Arrival

To enter Canada you will need to complete an ArriveCAN entry within 72 hours prior to arrival by air or land border. You will receive a QR code receipt to present when entering the country. After arriving, you will be required to complete an additional, separate ArriveCAN submission to receive a cruise-specific QR code receipt to be presented during embarkation. For voyages originating in a US homeport and ending in Vancouver, Canada, you will need to complete your ArriveCAN submission within 72 hours prior to embarkation.

Creating a profile in ArriveCAN allows personal data such as your name, date of birth, travel documents and vaccination certificate to be retained, thereby reducing the time required for subsequent submissions. Information required by ArriveCAN includes contact information and travel details.

Recent updates to ArriveCAN include:

- Fully vaccinated travelers and children traveling with a vaccinated parent or guardian will no longer be required to provide a quarantine plan upon entry.
- Fully vaccinated travelers and children traveling with a vaccinated parent or guardian will no longer be required to complete a pre-entry COVID-19 test for entry to Canada.

Face Coverings

Per the Canadian government, all travelers, regardless of vaccination status, must wear face coverings throughout their entire travel journey while in Canada, including in cruise terminals, COVID-19 testing areas, airports and aircraft.
